WORK EXPERIENCE

Front-end Developer Intern
Atlas Softweb ⬈

10/2018 - 04/2019   *Gujarat, India*
Achievements/Tasks
- Worked as a front-end developer in a drupal team for the SEO and designing aspects of a website radcliffecardiology.com

Web Designer
AMG Streams, LLC ⬈

09/2019 - Present   *Florida, United States (remote)*
Achievements/Tasks
- Currently working as a web designer for AMG Streams, LLC (remotely). over the last two years, I have delivered various websites using WordPress CMS and Joomla.

PERSONAL PROJECTS

Portfolio Website
- The portfolio website was developed to showcase my recent projects with the skills I have in front-end. It was initially designed in Figma as a prototype, later converted it into the web page using React.js, Tailwind CSS and with a few JavaScript libraries.
- URL: stephen-samuel.web.app.

Trip Website
- A landing page that resembles the actual travel website trip.com was developed using React.js & SASS. a REST API was also created with Node.js, Express and MongoDB, for the data fetching.
- URL: trip-prod.web.app.

Product Page Template
- A responsive product page template, developed using React.js & SASS, with features including 'newest to oldest' filter and product search.
- URL: shopping-page-template.web.app.

Moralis Website
- Just like the trip website, moralis is my current side project, a responsive landing pages that looks much like the actual website moralis.io. This project is currently under development. I wanted to do this application to enhance my skills in TypeScript and Redux along with React.js, Tailwind CSS, and to explore more JavaScript libraries.
